### **Many Columbiana County partners continue to prioritize those 70 and above. February 12, 2021**

Ohio's Vaccination Distribution plan currently allows those 65 years of age and older to receive the COVID-19 vaccine. However, with the limited supply of vaccine available, the many Columbiana County COVID-19 Vaccination Task Force members continue to prioritize vaccine for those 70 and above for the week of February 15, 2021.

Additionally, residents who meet the medical conditions listed in phase 1B will be offered the COVID-19 vaccine beginning February 15, 2020, at our local hospitals only. These are residents who were born with early childhood conditions that carried into adulthood, which put them at greater risk for adverse outcomes due to COVID-19.

You can find the full list of conditions at: [www.coronavirus.ohio.gov/static/vaccine/phase\\_1b\\_medical.pdf](http://www.coronavirus.ohio.gov/static/vaccine/phase_1b_medical.pdf)
